

MALARIA RAPID TEST

Malaria Rapid Test helps to distinguish malarial from other causes of febrile illnesses, facilitating appropriate treatment.

About Malaria

- ☑ Malaria is a serious disease found in tropical countries, most people get malaria from the bite of an infective mosquito.
- ☑ Malaria is preventable and curable. Starting treatment as soon as possible can often prevent severe illness and death.
- ☑ Malaria is not contagious and cannot spread from one person to another.

Symptoms

Malaria symptoms range from very mild illness to severe disease and even death.

Early Symptoms can include:

- *Fever and flu-like illness
- *Chills
- *Headache, muscle aches, and tiredness
- *Nausea, vomiting, and diarrhea may also occur

If not treated quickly, the infection can become severe.

Severe symptoms can include:

- *Multi-organ failure
- *Seizures
- *Mental confusion
- *Coma
- *Severe anaemia
- *Respiratory distress
- *Cerebral malaria
